SLEETER BULLE, son of a farmer six miles south-east of Sidney, celebrated the third anniversary of his birth the other day by falling in a well. The hole was twenty-nine feet deep, and contained nineteen feet of water. It had a pump in it, and as the boy went down feet first, he showed unex-ampled presence of mind by throwing one arm around the pump-stock. A woman saw him fall. She got a long-handled rake, reached down to him, and he grasped it. He lifted him-self too far out of the water by this and his weight soon broke his hold. Again he embraced the pump, and held on until a rope was procured. A man descended and the boy was saved.

BOGUS DOLLARS.

Gangs Organized to Pass Counterfeit Money Broadcast.

Detectives at Pittsburgh Make a Great Haul, Nineteen Persons Being Already Under Arrest.

A gigantic conspiracy to flood the United States with counterfeit silver dollars has been uncarthed and to the energy and intelligence of the officials of the First Police District of Pittsburgh is due the credit. Nineteen persons are already under ar-rest and \$1,100 is in the hands of the police. The money was brought from a central depot in New York City to Pittsburgh by a gang of Italians employed to pass it. The money was all in silver dollars, and United States Detective McSweeney says it is the best counterfeit of the standard silver dollar that was ever made. The coin is perfectly formed in every detail and its ring is identical with the good coin, the only fault about it being a little light in weight. Two of the Italians, named Ello Darige and Nelson Maggorina, accompanied by their wives, attempted to pass the spurious money over the bar of the Black Bear hotel but were detected by the proprietor and arrested. The party at first refused to say where they lived, but the woman finally broke down and told the police that they had been living at 523 Lincoln avenue, East End. The house was quietly surrounded and fifteen Italians arrested. Secreted under a bed in one of the rooms was found a pile of counterfeit money amounting to \$1,100. The prisoners were removed to the Central tion and locked up. After the house had been thoroughly searched the detectives interviewed the prisoners, one at a time, and succeeded finally in gaining the information that the money was made in New York and they had been sent there to dispose of it. Similar gangs were sent to other cities, but the men could not tell what particular cities were being operated on. Not a mold or die or any kind of counterfeiting machinery was found in the possession of the gang arrested there. Detective Mc-Sweeney says the Government has been after the New York gang of counterfeiters for a long time, and while sever-al arrests have been made from time to time and considerable of the counterfeit coin has been recovered, the real head of the organized band has not been uncovered.

Mr. Cooper Knows a Thing or Two.

Tom Cooper, a respectable colored citizen, of Aurora, Ill., owned a little market garden and house adjoining the city. A few weeks ago some of the comers desired to plat the land in that vicinity, and, objecting to a colored population, gave \$8,000 for Mr. Cooper's property. He then bought a house and lot on Pennsylvania avenue, whereupon his aristocratic neighbors immediately clubbed together and bought him out, giving a handsome profit. The enterprising colored man has since bought his old house and four lots of the platted property and will realize handsomely on the venture.

What a Contrast Is This.

The most delightful weather ever known in South Dakota is prevailing at Sioux Falls, and has been the order for ten days. Street sprinklers are out and a game of base-ball is scheduled for the 27th. The thermometer registered forty degrees below zero at Lyndonville, Vt., on the night of the 25th, and thirty below next morning. Reports from other sections of the State indicate that the storm has been the heaviest of the season. Railroad traffic has been greatly impeded. Reports from Summit Station state that the storm was the most severe in many years.

Maine's Abandoned Farms.

Labor Commissioner, Matthews has completed the compilation of abandoned farm statistics in Maine and the results are exceedingly interesting. The number of abandoned farms reported aggregate 3,310. The total acreage of these farms is 254,513 and their valuation for taxation is \$1,243,769. The assessors do not, as a rule, give any reasons why these farms were abandoned.

BIG COMBINATIONS.

Rumors of the Formation of a Number of Trusts for the Manufacture of Farm-ing Machinery. Springfield, O., the greatest center for the manufacture of agricultural machin-ery in the United States, is full of rumors of combines for the manufacture of agricultural machinery. A prominent man-ufacturer, although not engaged in manufacturing agricultural ma-chinery, but who claims to have inside facts, Thursday night stated that the grain drill manufacturers of the country are figuring on a deal for the formation of a grain drill combine. The threshing machine manufacturers of the country have already had one meeting looking to a combine, and it is said that a company with \$20,-000,000 capital stock is talked of similar to the American Harvester Company. A conservative estimate puts saving of expense harvester combine at \$10,000,000. It looks now as if the manufacturers of all kinds of farming machinery would join trusts in order to rid themselves of the expenses of supporting a vast army of agents and traveling men to sell ma-

chinery. The fact that many import-

ant patents on all kinds of farming ma-

chinery will soon run out is also stated

as the prime cause of the formation of

the combines. A White Christmas. The Signal Office furnished the following special bulletin for the press on the 25th: The present storm promises the greatest amount of snow in any single storm for several years. Warnings were sent Thursday morning to railways in Pennsylvania and New York of coming heavy snows, which during Friday will extend to Southern New England. From three to seven inches of snow fell Thursday in the Ohio Valley. The snow now extends from Indiana to Virginia. Heavy easterly gales, with snow and low temperature, are expected Friday from North Carolina to New England. General and heavy snow-falls will occur in the Ohio valley.

Could Not Live Without Him.

Baron Parisse Penhockkopler, an Austrian nobleman, who has been liv-ing with his wife at National City, Cal., for some time, died Thursday morning. When certain he was dead the wife asked outsiders to leave the room, and when they had done so she drank a quantity of chloroform and carbolic acid. She was found unconscious, and though still alive, can not recover.

Kech on His Lymph.

Prof. Koch, in a conversation with municipal officials in Vienna, denied that his lymph was in the smallest degree dangerous to life, providing it was employed in reasonable quantities by skillful physicians. He ascribed all the deaths that had occurred to improper doses of lymph, and asserted that neither he nor his assistants had caused a single death.

A Fool W th a Pistol. At Clarksburg, W.Va., Moses Howell, a railroad employe, while intoxicated, Christmas night, pointed a loaded revolver at Miss Norris, daughter of Geo.
Norris, with whom he boarded. It exploded and the ball passed through both wrists, inflicting a serious wound. The spent ball entered George Norris' ieg, causing painful injuries. Howell, who

claims it was an accident, was arrested

and jailed. Conv ets Pardoned, One a Lifer. In accordance with the time-honored custom, Governor Francis, of Missouri, Thursday granted two holiday pardons. The lucky men were W. W. Taylor, sent up from Hickory County in 1877 for twenty years, and John McGuire, sent up from Cole County in 1879 for fifty years. The Governor delivered the

pardons to the prisoners in person. A Victim of Fashion.

A woman about 60 years of age was walking on Eleventh avenue, at Fiftyfourth street, New York, Thursday, when she slipped and fell. Her head struck heavily on the sidewalk and her long hat pin, which was driven into the back of her head, punctured the brain. She was dead when the ambulance arrived. She has not yet been identified.

How's Your Liver?

Is the Oriental salutation knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bow-els are sluggish and con-stipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassi-tude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.
